## ARTIST STATEMENT

---

I'm inspired by watching people dance. When I observe movement, I see the moment I want to capture, even if I'm not looking for it. It drives me to pick up my camera. For me, the joy of photography isn't technical, but rather an attempt to capture that energy that I see. I'm inspired to document a moment that would otherwise just pass by. For this I rely heavily on intuition, which is undoubtedly guided by my dance training and experience as a dance model.
